WILLCOTT, ELIJAH DAVIES, SEB FOLVIG, MATT WILLIAMS PLAYING
'VOYAGE' BY KENNY BARRON**

PRESENTATION OF SERVICE AWARDS, ACADEMIC DIPLOMAS,
ACHIEVEMENT AWARDS AND DUX OF COLLEGE

FAREWELL AND CLOSE

PRESENTERS **ANGELA CARLISLE AND HARRISON TUNKS**

GUEST SPEAKER

DR LILA LANDOWSKI

Dr Lila Landowski is a neuroscientist with the School of Medicine, as well as a science communicator and science advocate. Her current field of research is stroke and fatigue.

Lila is the 2015 Premier's Young Achiever of the Year, a Tasmanian finalist for Young Australian of the Year in 2016, and a winner of the Australian Institute of Policy and Science Young Tall Poppy award in 2018. Her honorary titles include being named one of the Chief Scientist of Australia's "Science Superheroes," the inaugural Patron of National Science Week for Elizabeth College, and an ambassador for public education in Tasmania for the Department of Education. Lila is a Director of the Australian Medical Research Society and Epilepsy Tasmania.

Lila regularly engages with the community as a science expert on ABC radio, through a science segment on Hit 100.9 radio, at public talks, and in print and digital media.

She is also the director of communications for the Australian Medical Research Society, and manages social media for the Australasian Neuroscience Society as well as her own page The Rock-at Scientist. Lila was named one of the ABC Radio National Top 5 Science Scholars in 2019.

Lila has previously taught into courses at the University of Tasmania for eight years, working across various subjects for Bachelor of Medicine, Bachelor of Medical Research, Biotechnology, Pharmacy and Science students, as well as coordinating units in the Bachelor of Dementia Care. She has been awarded two of the university's highest honours, a Vice Chancellor's citation for early career teaching and a Vice Chancellor's citation for community engagement.

WELCOME TO COUNTRY

JORDAN RUSSELL
YEAR 12, 2019

I was fortunate enough to attend Elizabeth College from 2018 to 2019 and before that, New Norfolk Primary School and New Town High School.

What I enjoyed most about my time at Elizabeth College was the welcoming and home-like atmosphere around campus, with on-going support from staff, as well as the lasting friendships I have built.

As a proud Indigenous person I have often been called upon to do Welcome to Country at school events and gatherings and also at national conferences. Encouraging all people to recognise the traditions, culture and legacy of the first peoples is something I feel privileged to share with others.

During my time at Elizabeth College, I studied a range of Performing Arts and Humanities subjects discovering a passion for performing and exploring the world of law.

As a result, I am currently studying law at the University of Tasmania which will hopefully lead to a career in the legal system where I can make a difference and help those less fortunate.

NOTES ON SPECIAL AWARDS

Tasmania School of Business and Economics (TSBE), University of Tasmania Scholarship

The purpose of the scholarship is to recognise the input and the outcomes achieved through participation in the TSBE and Elizabeth College Business Education Partnership, 2019. The recipient will be the student who best represents the underlying spirit of the business program including the successful completion of the eligibility requirements.

Malcolm Freedman Prize for Physics

Malcolm Freedman taught Physics at the College. He is particularly remembered for his management of the Science Talent Search and the enormous contribution he made to his subject area, both within the College and statewide. He died prematurely and courageously in 1988 after a short illness.

Steven Hurst Memorial Music Prize

Steven Hurst attended Elizabeth College during 1976 and 1977. This prize was initiated in his memory by his parents, Rosemary and Nevin Hurst. It is awarded to the student(s) considered to have made the greatest contribution to the music program at the College and, in turn, gained from that experience.

John Kable QC Memorial Award

John Kable QC was a student at the College in 1969 and 1970, following Years 7–10 at Elizabeth High School. He practised law as a barrister and solicitor in Launceston before practising as a barrister throughout the state. Extremely successful in his High Court practice, John Kable was Tasmania's leading barrister at the time of his early death at the age of 40.

John Peacock Award for Sport Science

John Peacock was an original staff member of the College when it opened in 1968. In his 31 years as a teacher he was responsible for developing the Sport Science curriculum. John was also involved in instigating the development of the Elizabeth College Gymnasium.

Lance Strickland Prize for Chemistry

Lance Strickland was the inaugural Senior Master of Chemistry at Elizabeth College and was Head of the Department until his retirement in 1975. He continued to maintain a keen interest in the subject after his retirement.

James Brown Memorial Award for Leadership and Academic Excellence

James, who tragically passed away, was a highly regarded student with a bright future. James' motivation and passion for knowledge was infectious. He was an inspiration to all who knew him. We are proud to have had James as a student at Elizabeth College.

The Geoff Dyer – Peter Jackson Annual Prize

This prize is awarded to the Art Studio Practice student whose body of artwork exhibits the strongest combination of audacity, skill and conceptual rigour. The award was inaugurated in 2019 in honour of former EC Visual Art teachers Geoff Dyer and Peter Jackson, and is sponsored by Jane Giblin.

YEAR II DUX OF ELIZABETH COLLEGE

Silver Medal Award

Ruby-Questa Collis

ELIZABETH COLLEGE YEAR 11 DUX AWARD

RUBY-QUESTA COLLIS

Formerly a student at Taroona High School, Ruby studied Maths Methods 4, English Literature 3, Biology 3 and Physical Sciences 3 in Year 11 at Elizabeth College. Ruby thoroughly enjoyed her Year 11 studies, as her subjects were incredibly well taught and engaging.

She was a participant in ECAAD, which proved to be a wonderfully supportive environment that encouraged personal development, academic excellence and extracurricular activity. She found the talks from various scientists particularly exciting, as they provided insight into the wide range of careers available in STEM. Ruby would like to thank all the ECAAD teachers for their efforts in making ECAAD such a wonderful experience in 2019, as it made the transition from high school to college seamless.

Ruby firmly believes that the teachers at Elizabeth College are of a world class standard and attributes her enjoyment of Year 11 to all her fantastic teachers. They were all deeply knowledgeable about their subject areas and were able to answer questions far outside the scope of the courses. She thanks them all for their hard work and encouragement throughout 2019.

In Year 12 Ruby is studying Maths Specialised 4, Physics 4, Chemistry 4 and Economics 3. After completing this year, she hopes to study immunology at the University of Melbourne.

Ruby looks forward to applying the skills she learned in Year 11 to both Year 12 and further study.

YEAR 12 DUX OF ELIZABETH COLLEGE

Gold Medal Award

Harshika Herath
(ATAR 99.95)

Charles Jibi
(ATAR 99.95)

ELIZABETH COLLEGE YEAR 12 DUX AWARD

HARSHIKA HERATH

Harshika attended Mount Stuart Primary School, and then went to Ogilvie High School. She then went on to attend Elizabeth College during which she enjoyed studying several subjects including Economics, Biology, Maths Specialised, English Literature and Chemistry.

At Elizabeth College Harshika was extremely grateful to her teachers, especially those in ECAAD and the Sciences, who provided her with the support, kindness and encouragement to continue working hard and pursue her ambitions.

She was very grateful to be a part of ECAAD as she believes that being around other students who were hard working and positive, as well as being provided with extra opportunities, motivated her to strive to achieve her goals.

Harshika is also extremely thankful for her friends and family who not only provided her with academic support, but also encouraged her to pursue her interests and aspirations.

This year, Harshika will be studying Medicine at Monash University. She chose to study Medicine as it allows her to explore her interests in the field of Science, as well as allowing her to pursue both a fulfilling and challenging occupation in which she will be able to directly and positively impact other people's lives.

ELIZABETH COLLEGE YEAR 12 DUX AWARD

CHARLS JIBI

Formerly from St Virgil's College, Charls studied Maths Methods, Physical Sciences, Economics and English in Year 11. He followed this in Year 12 by studying Maths Specialised, Chemistry, Biology and HAP (University of Tasmania) Maths.

Charls found his Year 11 and 12 studies at Elizabeth College both enjoyable and challenging. ECAAD provided further opportunities and extension openings for Charls in his time at Elizabeth College.

Charls particularly liked the many opportunities, activities and enrichment options available for students at the College as they provided individuals with a break from their studies and gave students the opportunity to make even more friends, try something new and encouraged a work-study balance.

He especially enjoyed participating in the titration and maths relay competitions.

Charls would like to acknowledge and thank the teachers at Elizabeth College for their support over the last two years. He believes the inviting atmosphere motivates students, as well as creating a positive ambience in which learning is most effective.

Charls, after completing his senior secondary education, has commenced a Bachelor of Medicine and Bachelor of Surgery (MBBS) at the University of Tasmania. He believes that the skills and strengths he used in his pre-tertiary education will assist him down this pathway and he also hopes to develop new qualities to be the best he can in his future career and ambitions.
