

ELIZABETH COLLEGE

2021
PRIZE
WINNERS

Elizabeth College
inspired resourceful learners

NOTES ON SPECIAL AWARDS

Tasmanian School of Business and Economics (TSBE), UTAS Scholarship

The purpose of the scholarship is to recognise the input and the outcomes achieved through participation in the TSBE and Elizabeth College Business Education Partnership, 2020. The recipient will be the student who best represents the underlying spirit of the business program including the successful completion of the eligibility requirements.

Malcolm Freedman Prize for Physics

Malcolm Freedman taught Physics at the college. He is particularly remembered for his management of the Science Talent Search and the enormous contribution he made to his subject area, both within the College and statewide.

Steven Hurst Memorial Music Prize

Steven Hurst attended Elizabeth College during 1976 and 1977. This prize was initiated in his memory by his parents, Rosemary and Nevin Hurst. It is awarded to the student(s) considered to have made the greatest contribution to the music program at the College and, in turn, gained from that experience.

John Kable QC Memorial Award

John Kable QC was a student at the college in 1969 and 1970, following Years 7–10 at Elizabeth High School. He practised law as a barrister and solicitor in Launceston before practising as a barrister throughout the state. Extremely successful in his High Court practice, John Kable was Tasmania's leading barrister at the time of his early death at the age of 40.

Lance Strickland Prize for Chemistry

Lance Strickland was the inaugural Senior Master of Chemistry at Elizabeth College and was Head of the Department until his retirement in 1975. He continued to maintain a keen interest in the subject after his retirement.

James Brown Award for Leadership and Academic Excellence

James, who tragically passed away, was a highly regarded student with a bright future. James' motivation and passion for knowledge was infectious. He was an inspiration to all who knew him.

John Peacock Award for Sport Science

John Peacock was an original staff member of the College, when it opened in 1968. In his 31 years as a teacher he was responsible for developing the Sport Science curriculum. John was also involved in instigating the development of the Elizabeth College Gymnasium.

The Geoff Dyer – Peter Jackson Prize

This prize is awarded to the Art Studio Practice student whose body of artwork exhibits the strongest combination of audacity, skill and conceptual rigour. The award was inaugurated in 2019 in honour of former Elizabeth College Visual Art teachers Geoff Dyer and Peter Jackson, and is sponsored by Jane Giblin.

Rotary Club of Salamanca Achievement Scholarship

This scholarship is to be awarded to a student who has a passion for learning and self-development and who is undertaking a university or TAFE recognised course after college.

Tas Gifted Awards

Breaking Barriers (overcoming challenges)

This is for a student who has overcome something to achieve high standards.

Breaking Boundaries (exceptional creativity)

This is for a student who is creative outside traditionally creative subjects.

The Margaret Pinkard Award

Awarded for commitment and spirit in VET studies.

FROM THE PRINCIPAL

At Elizabeth College our vision is, *“To build a community of Inspired Resourceful Learners through education of the highest quality”*. We aim to equip our students with the knowledge, understanding, skills and values that they need to achieve and be successful. One of our key goals is to build resilience in our students and our motto is, **“Connected and on Track”**. We want students to feel part of Elizabeth College and the greater community and be focussed on their future pathways.

The graduating class of 2021 has shown impressive resilience in completing their two years of College during this pandemic. The students and teachers all took on challenges that no one in our lifetime has seen before. Being recognised in your studies in 2021 is an amazing achievement; we are proud of every single student.

The success of all these students is a result of all those who have supported them, nurtured them, taught them, cheered them on, and at times, helped them rise above their disappointments. The College acknowledges and thanks all the incredible parents and carers, who have been by their side every step of the way. They have encouraged each one of them to push themselves to reach their full potential. Please remember to express gratitude to all these people for their unwavering support.

The dedicated, hard-working and passionate teachers at Elizabeth College must be acknowledged for inspiring all students to be the best they can be. They have taught, mentored, given feedback and advice, so that students are well-prepared for life after College and the next set of challenges and rewards that are waiting. We all feel privileged to have helped these students achieve their goals.

As Principal, I continue to be delighted by students' resilience, creativity, initiative, leadership and the care and respect they show for others.

I am sure you will all share my pride in last year's external examination results:

- Forty-seven students achieved an ATAR of 90 and above and twenty of these an ATAR of 96+
- Our Dux Award was shared by two students, Joseph Fracalossi and Phoenix Robey who obtained perfect scores of 99.95
- Nine students achieved results in the top 100 in the state
- Four students received the Outstanding Academic Achievement Award for 2021 from the Governor, Her Excellency the Honorable Barbara Baker
- Four students received the Outstanding Vocational Education and Training (VET) Achievement Award

Vocational Education is also an important part of our curriculum at Elizabeth College. Each year more and more of our students undertake vocational studies as part of their course, to prepare them for further studies at TAFE, apprenticeships, and employment. We hold a VET Graduation for these students in November each year and a list of all prize winners from the 2021 event is included in this publication.

It is disappointing that this year, due to recent COVID restrictions on large gatherings within schools, that we have been unable to celebrate the successes of Elizabeth College students in 2021 at our annual Prize Night ceremony. This event brings together classmates, families, teachers and community members. We are pleased to present the *Elizabeth College 2021 Prizewinners* featuring all our inspiring students who excelled in their studies last year. We hope that you will take the time to visit the Elizabeth College website at www.elizabethcollege.tas.edu.au to view the testimonies of our Duxes, Joseph Fracalossi and Phoenix Robey, two outstanding young individuals with bright futures, as well as view our slideshow of the year of 2021.

I extend my warmest congratulations to all students receiving awards for their high academic achievement in 2021. Their dedication, commitment and hard work have

distinguished them amongst their peers. I am confident they will build on their College successes in the future.

Finally, to those prize winners who have now left College, I wish you every success as the new journey begins towards an exciting future. Please keep in touch with Elizabeth College, and the wider College community. We will always be glad to see you and hear where life has taken you.

Please join our Alumni register and Alumni Facebook group at: www.elizabethcollege.tas.edu.au/alumni/

I finish with a quote from philanthropist, Michael Dell:

As you start your journey, the first thing you should do is throw away that store-bought map and begin to draw your own.

Dr Dianne Purnell
Principal

ECAAD Camp 2021

ELIZABETH COLLEGE YEAR 12 DUX AWARD

JOSEPH FRACALOSSI

Formerly from St Virgil's College, Joseph studied Maths Methods, Physical Sciences, Recreation and Outdoor Experiences and English in Year 11 at Elizabeth College. He then studied Maths Specialised, Chemistry, Physics and Economics in Year 12.

Overall, Joseph really enjoyed his College experience. In Year 11, he found that the transition into the new environment to be smooth because of the supportive teachers. He also enjoyed participating in the enrichment activities and found this to be a great way to encourage a study-balance and to seek out new opportunities.

In Year 12, he found the challenges of his subjects engaging. He is grateful to all of his teachers, who were both knowledgeable and wanted their students to succeed. He believes that

the high achievement of students at Elizabeth College is definitely a testament to the hard-working staff.

Joseph also attributes much of his success to the support received from family and friends who encouraged him to pursue his goals.

In 2022, Joseph will be studying a Bachelor of Engineering at the University of Tasmania. He hopes to build on the skills and knowledge gained at Elizabeth College to positively contribute to society.

ELIZABETH COLLEGE YEAR 12 DUX AWARD

PHOENIX ROBEY

Formerly a student at St Virgil's College, Phoenix studied Maths Methods, Economics, Physical Sciences and ADP Basketball in Year 11.

In Year 12, Phoenix's chosen subjects were Maths Specialised, Chemistry, Sports Science and English. Phoenix was very happy with his choice to attend Elizabeth College and found his teachers to be supportive, engaging, and passionate in their areas.

Phoenix was a participant of the Elizabeth College Advanced Academic Diploma (ECAAD) program, which he found to be motivating, enjoyably competitive, and a good source of friendships.

Tasmania's COVID lockdown had an interesting impact in 2020–21, and for many weeks in 2020, classes

moved to an online format. During this time, Phoenix found that his teachers provided excellent support and really went the extra mile to ensure students were coping.

Years 11 and 12 were challenging as Phoenix was driven to excel equally in basketball, his chosen sport, as well as academically. One of the things Phoenix is most grateful to EC for is the support and flexibility the school offered him in being able to pursue both areas so effectively.

In 2022, Phoenix is pursuing a career in basketball, focusing on the upcoming NBL1 Season. He has deferred a Bachelor of Physiotherapy degree at the University of Queensland and plans to revisit this in the future while keeping all options open for basketball and further study.

SERVICE AND CITIZENSHIP AWARDS

Rotary Club of Salamanca Achievement Scholarship	Arezoo Hami
Elizabeth College Indigenous Award for Academic Excellence	Ruben Sheriff

NAOISE MICHELIN

Naoise Michigan came to Elizabeth College in 2021 from Taroona High. In 2021 she studied Maths Methods, Physical Sciences, Music and English. Throughout the year she participated in extracurricular activities such as the orchestra for the College Musical.

Outside school she also has a part time job, balancing work, and school life.

Naoise would like to extend a huge thankyou to her Year II teachers, Chris Cato, Eunji Kim, Jennie MacDonald and Kate Kerr.

In 2022, Naoise is studying Maths Specialised, Chemistry, UTAS Music and Physics, and is looking forward to participating in a range of music ensembles including, the orchestra for *Pippin*, the College Musical in 2022, the woodwind ensemble and the school's tutoring program.

In the future Naoise hopes to continue her studies at university in Mathematics and Science
